Why Is This Product Different?

- ✓ **Simple & Hassle-free**
 - Easy to apply. You do not need to disclose to us the value of every item of your home contents, just choose your preferred plan to sign-up.
 - Easy to Claim. To complete a claim form and provide proof of damage/loss. Claim must be paid to the rightful owner. We understand sometimes it is difficult to provide receipt for us to determine ownership, hence you do not need to show proof of receipts for your home content unless we require some proof to confirm ownership only if necessary. However, a police report is required if it is a criminal act.
- ✓ **Complements Your Houseowner Insurance**
 - Houseowner Insurance covers your home building only.
 - When combined with *Secure Home*, it covers both your home building and household goods & personal belongings* which belong to you, your family members or full-time maid residing with you at the insured premise.
- ✓ **No Impact for Underinsurance**

For example, you bought a policy with sum insured of RM15,000. However, the total value of your home content is RM30,000. This means you are underinsured. In the event of a claim with a partial loss of RM10,000,

 - If Underinsurance is applied (it will have impact on the eligible claim amount due to the underinsurance)
Your insurer pays $RM15,000/RM30,000 = \frac{1}{2}$ ratio x RM10,000 = RM5,000. You will have to bear the remaining RM5,000 partial loss yourself.
 - If No Underinsurance is applied (it will have no impact on the eligible claim amount due to underinsurance)
Your insurer pays up to RM10,000, but subject to limit per item based on selected plan, excess (if any) and other terms and conditions.
